Situational Awareness

- Wayne County confirms that 14 new Livonia residents have tested positive for COVID-19 in the last 24 hours.
- The State of Michigan reports 1,960 new individuals have tested positive for COVID-19 in results reported to the state in the last 48 hours.
- The Centers for Disease Control and Prevention releases new recommendations for fully vaccinated people, including their ability to visit with other fully vaccinated people indoors without wearing masks or physical distancing. Fully vaccinated people should continue to wear masks in public settings.
- More Americans have now been fully vaccinated against COVID-19 than Americans who have been diagnosed with COVID-19 since the pandemic began.
- All Livonia residents are encouraged to register for a CivicRec account to receive e-mail updates regarding the status of the Vaccinate Livonia program and other avenues for signing up for vaccine appointments in our area. Visit VaccinateLivonia.org for more information, including responses to frequently asked questions.
- Vaccinate Livonia asks residents who have received the COVID-19 vaccine through the program to plan to return to the Senior Center for their second dose three weeks after their first shot, keeping the same appointment time.
- **Please note:** Those with appointments are asked to arrive promptly at the time of their appointment with photo identification showing a Livonia address.

Actions Taken

- Livonia Fire & Rescue this week is returning to select senior housing facilities in Livonia to administer second doses of the Pfizer vaccine.
- After this week, the Vaccinate Livonia program is committed to providing second doses of the Pfizer vaccine to those who have previously received their first dose at the Livonia Civic Park Senior Center. No new first dose appointments will be available through the City of Livonia at this time.
- **Please note:** In cooperation with the Great Lakes Water Authority (GLWA), the City of Livonia Water Department will be conducting temporary operational adjustments to the water distribution system in the area of Eight Mile and Newburgh Roads beginning at 9 a.m. on Monday, March 8 and continuing until Friday, March 19. During this time, you may experience temporary lower than usual water pressure and discoloration of water. The anticipated affected area encompasses all properties west of Merriman Road. These activities are being conducted to facilitate the replacement of a large GLWA master meter on the regional transmission main that provides our residents with clean, safe, reliable drinking water. If you have any questions you may contact the Department of Public Works Public Service Division at (734) 466-2655.
